***New Country Club***

I play a variety of tennis and want a racket that provides me with easy access to power, in order to make playing tennis effortless.

# RF 01 TENNIS RACKET

A VERSATILE, MANEUVERABLE AND FORGIVING RACKET  
DESIGNED WITH ROGER FEDERER.

**R4000incl.**

For Roger Federer's last year on tour, he needed a tennis racket that would help him compete with the new generation of heavy baseliners while maintaining his all-court style. The Wilson RF 01 is inspired by that racket. It's lighter than our RF 01 Pro, making it a more maneuverable version. It features the same SABR Frame Design that gives it versatility, allowing for the pace, spin and direction changes signature to Roger's game. You'll notice a fast head speed thanks to Glide Guard B&G and a great ball-pocketing feel from Braid 45 Technology.

**Braid 45 Construction:** Frame construction arranges the double braided fibers at 45 degree angles, allowing the braid to breathe more upon impact. The result is an enhanced pocketing feel combined with incredible stability.

**SABR Frame Design:** Created in collaboration with RF for excellent performance versatility, allowing for pace, spin, and direction changes, which are a signature of his all-around style.

**Glide Guard:** Inresistance and faster racket head speed. Itegrated smooth bumper and grommet design for reduced air.

UNSTRUNG WEIGHT: 300g

HEAD SIZE: 98inch

STRINGING PATTERN: 16 X 19

# RF 01 FUTURE LITE TENNIS RACKET

**ONLY AVAILABLE IN L2 GRIP SIZE**

**R3700incl.**

A VERSATILE, MANEUVERABLE AND FORGIVING RACKET DESIGNED WITH ROGER FEDERER.

## **Rincl.**

For Roger Federer's last year on tour, he needed a tennis racket that would help him compete with the new generation of heavy baseliners while maintaining his all-court style. The Wilson RF 01 Future Lite is inspired by that racket. It's our lightest RF racket of the collection with a slightly higher balance, making it highly maneuverable with additional power for next-generation players. The SABR Frame Design gives it versatility, allowing for the pace, spin and direction changes signature to Roger's game. You'll notice a fast head speed thanks to Glide Guard B&G and a great ball-pocketing feel from Braid 45 Technology.

**Braid 45 Construction:** Frame construction arranges the double braided fibers at 45 degree angles, allowing the braid to breathe more upon impact. The result is an enhanced pocketing feel combined with incredible stability.

**SABR Frame Design:** Created in collaboration with RF for excellent performance versatility, allowing for pace, spin, and direction changes, which are a signature of his all-around style.

**Glide Guard:** Integrated smooth bumper and grommet design for reduced air.

**UNSTRUNG WEIGHT:** 260g

**HEAD SIZE:** 98inch

**STRINGING PATTERN:** 16 X 19

CONTROL  
FEEL  
POWER  
PRECISION

I am an experienced player looking for a racket that delivers the pinnacle in precision and performance.

## PRO STAFF X V14.0 -

PLAYERS LOOKING FOR PRECISION –  
R4000 incl. **NO STOCK**

Featuring a refined, elegant design and a rich earth tone, the Wilson Pro Staff X is a more playable racket for anyone and offers extra forgiveness due to a larger head size. With its head-light balance and crisp feel, it's reminiscent of the Pro Staff 97. We arranged the double braid at 45-degree angles, allowing the frame to breathe upon impact for enhanced pocketing and stability.

Ideal for players who enjoy the classic Pro Staff feel but are looking for a more forgiving, easy-to-swing racket.

**Braid 45 Construction:** Unique construction that arranges double-braided fibers at 45-degree angles that provide incredible stability and an elevated pocketing feel.

**String Mapping:** A denser string bed provides elevated feel and outstanding precision.

**Paradigm Bending:** Unique, carbon fiber construction optimizes the hoop and shaft's bending profile for elevated flexibility without losing any of the power needed for the modern swing.

### Player Type:

Avid competitor player.

UNSTRUNG WEIGHT: 315g

HEAD SIZE: 100inch

STRINGING PATTERN: 16 X 19

## PRO STAFF 97 V14.0-

PLAYERS LOOKING FOR PRECISION –  
R4000 incl.

Designed with Paradigm Bending technology to optimise the bending profile between the shaft and hoop, this racket offers precision and pinpoint control. We arranged the double braid at 45-degree angles, allowing the frame to breathe more upon impact. This increases dwell time while maintaining the stability responsible for the classic Pro Staff feel.

**Braid 45 Construction:** Unique construction that arranges double-braided fibers at 45-degree angles that provide incredible stability and an elevated pocketing feel.

**String Mapping:** A denser string bed provides elevated feel and outstanding precision.

**Ergonomic End Cap:** Improved comfort and playability thanks to the Ergonomic End Cap.

**Paradigm Bending:** Unique, carbon fiber construction optimizes the hoop and shaft's bending profile for elevated flexibility without losing any of the power needed for the modern swing.

**Design:** Combines the classic, elegant persona of the Pro Staff franchise with modern innovation

CONTROL  
**FEEL**  
POWER  
PRECISION

I am a big-hitter and I need a racket that allows me to feel the ball to attack my opponent.

### **BLADE 98 16 X 19 V9 -**

A sharper, more stable Blade ideal for avid players who want ultimate control and feel.

**R3500 incl.**

Building on nearly 20 years of dominance, Wilson's Blade performance rackets continue to be the preferred choice of avid competitors looking for ultimate control, feel and stability. The Blade 98 (16x19) V9 has a sharper, more stable response that produces a more connected-to-the-ball feel. Featuring a new Emerald Night matte finish, the V9 has a braided graphite + basalt frame with a DirectConnect carbon fiber handle for enhanced torsional stability. It also features an open string pattern with a more forgiving response, which delivers consistent, spin-friendly shots.

FortyFive°: Patent-protected frame layup produces more connected-to-the-ball feel while better complementing the more modern, vertical swing path. Material increases both flexibility and stability without compromise through the swing.

Bladed Graphite + Basalt: Elastic and reactive material combination improves the flex of a racket to increase ball contact with the strings for enhanced feel and greater control.

Direct Connect: Carbon fiber handle extends to directly connect with end cap for improved feel and enhanced torsional stability.

Stable Feel: The new Blade technology that provides an enhanced, firmer feel that increases stability and creates a more connected-to-the-ball feel. Designed with avid players in mind, this "sharper Blade" is ideal for those seeking to improve their game.

#### **Player Type:**

## **BLADE 100L V 18X20 -** PLAYERS LOOKING FOR FEEL – R3300 incl.

Building on nearly 20 years of dominance, Wilson's Blade performance rackets continue to be the preferred choice of avid competitors looking for ultimate control, feel and stability. A lighter and more manoeuvrable racket for effortless swings, the Blade 100L V9 improves upon the outstanding design of the V8 by sharpening responses and increasing stability. Featuring a new Emerald Night Green matte finish, this racket gives players an optimal blend of control, feel and power. Its braided graphite + basalt frame with DirectConnect carbon fiber handle delivers improved feel and enhanced torsional stability. Grommet construction provides a consistent, more forgiving string bed response while dramatically increasing the sweet spot. Patent-protected frame layup produces more connected-to-the-ball feel while better complementing the more modern, vertical swing path. Material increases both flexibility and stability without compromise through the swing. Tapered grip lends better feel for top-handed grip placement on two-handed backhand.

## SHIFT 99 V1.0 -

PLAYERS LOOKING FOR MODERN SPIN  
– R3800 incl.

Achieve the ultimate combination of spin and power with the Wilson Shift 99 V1 Tennis Racket. Ideal for intermediate to advanced, all-around players, the Shift 99 has an innovative string pattern and bending profile built to be stable, yet laterally flexible for controllable power and devastating spin. A first of its kind, the Shift V1 collection was built and refined via player feedback from all over the world. Add in the plant-based materials used throughout the end cap and bumper, this racket will bring your game to the next level.

ARC3D: W|Labs innovation team's patent pending technology that utilized computer aided design software to create specific geometry that maximizes lateral bending without losing any torsional stability.

# CLASH

## CONTROL

## FEEL

## POWER

## PRECISION

I want a racket that gives me total confidence to powerfully swing away, knowing my racket will give me unparalleled control on every shot.

## CLASH 100 V3.0 -

PLAYERS LOOKING FOR BALANCED COMFORT

– R3600 incl. **NO STOCK**

Our most popular Clash model with an innovated design, tuned for all-around players seeking a balance of power, comfort and control.

At the forefront of the perennially popular and exceptionally playable Clash line, the Clash 100 V3 retunes the reliable design for power, consistency and control that lets players of all levels play their best tennis. Its blend of flexibility, stability and comfort deliver a feeling unlike any other, and its enhanced forgiveness makes everywhere feel like the sweet spot.

Agiplast plant-based bumper, grommets and end cap incorporate sustainable components for a reduced environmental footprint, while the new Click & Go bumper system makes replacement quick and easy.

An embossed Clash logo on the throat refines the iconic design with a look that complements and balances the performance-based graphite black design.

# BURN V5

I am a baseline player that wants a powerful punch.

## **BURN 100LS -**

**– R2600 incl.**

Lightweight and dripping with power, the Burn 100LS V5 is engineered with Spin Effect Technology to add more bite and spin that help control blistering strokes from the baseline. Due to its lighter weight, this racket is easier to swing with pace and manoeuvre for every shot. New model sports an orange bumper guard alongside a refreshed frame design.

Lighter weight for optimal manoeuvrability  
Spin Effect Technology increases ball RPM without changing your swing to maximize spin  
High Performance Carbon Fiber offers increased frame stiffness for explosive power  
Parallel Drilling provides a consistent, more forgiving string bed response  
New orange bumper guard adds lightweight protection for racket hoop

UNSTRUNG WEIGHT: 280g

HEAD SIZE: 100inch

STRINGING PATTERN: 18 X 16

## **BURN 100ULS-**

**– R2300 incl.**

For players who love to hit from the baseline, Wilson's Burn 100ULS brings the heat. This ultralight, easy-swinging tennis racket is the lightest adult racket in the Burn line-up, making it a great choice for rising juniors and players with a history of injuries. Featuring a carbon fiber composition with increased frame stiffness, it unleashes plenty of pace upon contact. The V5 is highlighted by a burnt orange color that's sure to pop on court.

Parallel drilling; Grommet construction provides a consistent, more forgiving string bed response while dramatically increasing the sweet spot.  
High performance carbon fiber: Premium modulus carbon graphite provides increased frame stiffness for explosive power.  
Spin-effect: The first racket system that actually increases ball RPM without players changing their swing, this patented spin technology features more mains than crosses in the string bed to make the net seem lower and the court feel longer on every shot.

# RECREATIONAL RACKETS

BLADE

## **TRIAD THREE-- R3100 incl.**

One of the most comfortable oversize performance rackets in the market, the Triad Three sports a generous sweet spot for dripping power and some extra forgiveness. The Triad's notable three-piece racquet system enables maximum power in the hoop, good control in the handle and reduced shock in the arm. Players also can add more pop to their shots thanks to the Hammer Technology, which places more weight in the head of the frame for greater stability and power. And the added length will help you chase down that one extra shot. This frame comes pre-strung with Wilson's Sensation strings at 53 pounds / 24 kilograms, and it serves up an appealing swath of features for experienced players seeking more arm-friendly comfort and a larger sweet spot.

WEIGHT: 277g  
HEAD SIZE: 113inch  
STRINGING PATTERN: 16 X 19

## **HYPER HAMMER LEGACY R1550 incl.**

Power frame for players with short, compact swings.  
Longer length extends player's reach to get tough shots  
Midsized head size offers improved control and feel  
Hammer Technology creates a larger sweet spot for more power and forgiveness  
Perimeter Weighting System improves torsional stability  
Power Loop Technology provides improved performance  
Perforated grip for extra comfort and moisture absorption

WEIGHT: g  
HEAD SIZE: 103 inch  
STRINGING PATTERN: 16 X 19

## BLADE FEEL RXT 105– R999 incl.

This Wilson Blade Feel RXT 105 racquet is inspired by Stefanos Tsitsipas' racquet and is suitable for beginner to intermediate players. It is positioned as a transitional racquet to more advanced racquets. It offers great feel and touch to give you more control.

It features R Beam technology that gives you more power through better air penetration. It also offers good power while remaining comfortable thanks to its Double Holes technology. This racquet offers a great balance of power and control with an exceptional feel, ideal for the improving player looking for a quality racquet.

This racquet is longer (69.9 cm instead of 68.5 cm) for more power.

WEIGHT: 298g

HEAD SIZE: 105inch

STRINGING PATTERN: 16 X 19

## BLADE FEEL TEAM 103– R950 incl.

The Blade Feel Team 103 racket is designed for the casual or beginner player and offers fantastic feel and comfort.

The 275 grams of this racquet offers plenty of flexibility to accelerate your racquet head and get ball speed.

The 33cm center of gravity, combined with the 665cm<sup>2</sup> head size, offers plenty of power and forgiveness on off-centre hits.

The relatively versatile 16×19 string pattern will allow spin enthusiasts to vary their game to destabilize their opponents!

### **Player Type :**

This powerful and versatile racquet will suit a wide range of casual and beginner players.

### **Technologies :**

– **Arc2** : Frame shape for improved stability and control

– **Double Hole** : Larger allow better string movement for more power and spin

WEIGHT: 275g

HEAD SIZE: 103 inch

STRINGING PATTERN: 16 X 19

## **FUSION XL – R460 incl.**

The **Wilson Fusion XL Tennis Racket** is the right tennis racket for recreational tennis beginners. With a larger headsize and V-Matrix technology, this tennis racket has a wider sweet spot, making it a more forgiving option. With an AirLite alloy frame, this tennis racket is lightweight and doesn't spare on power. Made of AirLite alloy for a lightweight frame with more power and durability. V-Matrix technology for a wider sweet spot and more power. Power bridge technology to optimize bounce speed, stop shock pads located in the throat to reduce vibration, strung.

WEIGHT: 274g  
HEAD SIZE: 112inch  
STRINGING PATTERN: 16 X 19

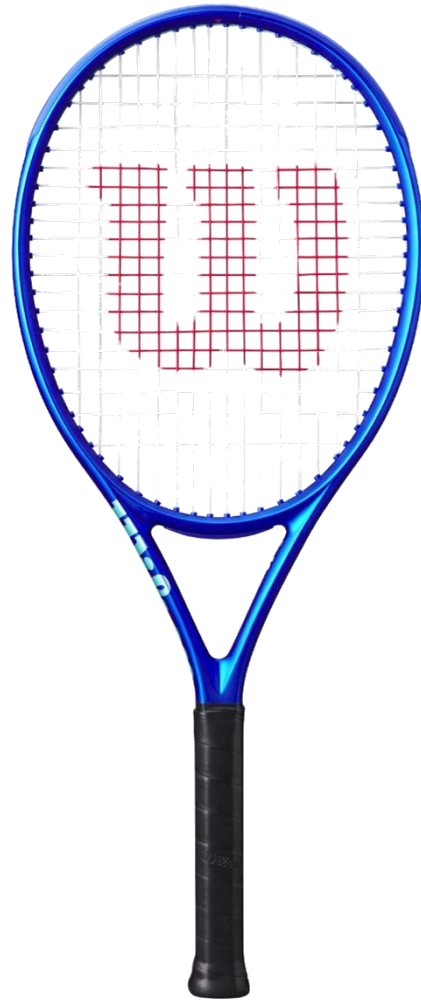

## JUNIOR RACKETS

### ULTRA 26“- R1950 incl.

The Wilson Ultra 26 V5 is ideal for up-and-coming 11-year-olds who want to combine powerful strokes with precise ball control. Featuring advanced SI3D technology and an innovative grommet system, the racket provides extended ball dwell time and optimal feel - perfect for giving every shot the shape you want. The full carbon handle provides stability and comfortable feedback, while the generous sweetspot is forgiving and confidence boosting. The stylish Electric Indigo design ensures the perfect appearance - just like the pros.

WEIGHT: 245g  
HEAD SIZE: 100inch  
STRING PATTERN: 16X19

### BLADE 25“- R1700 incl.

This Blade 25 V8 version evolves to offer young tennis promises a powerful but precise racket with a striking new look. Made of graphite like previous versions, we will find among its modifications we find a superior grip cone in the handle for a better grip and a greater sensation in the two-handed backhand, parallel perforation on the head to allow a more permissive response of the string sieve, further improving the sensation of contact with the ball in the beating.

In order to adapt the sensations to the player, it comes pre-strung with Wilson Sensation 1.25 string, a multifilament that protects the arm and gives us power to the blows. Its cosmetics will not leave anyone indifferent with its very striking green metallic finish.

If your learning curve is upward, this racquet is perfect for establishing knowledge and character before taking the big leap into your adult racquet.

WEIGHT: 245g  
HEAD SIZE: 100 inch  
STRING PATTERN: 16X19

## BLADE FEEL COMP 26"-

**R999 incl.**

Wilson's Blade Feel Comp Jr is a great racket for 11 to 12 year old players who want to take their game to another level. The composite frame hits a balance of flex and stiffness for a mix of power and control. It has a fused construction, which offers a high level of playability. The racket comes with perforated grip, so hands stay dry and comfortable during tough matches. Inspired by the Blade performance racket collection

Ideal racket for developing junior players  
Fused: An excellent blend of playability and control is provided by a plated fiberglass and aluminum composite build.  
Perforated grip that absorbs moisture to maximize comfort

WEIGHT: 265g comes strung  
HEAD SIZE: 100 inch  
STRINGING PATTERN: 16 X 19

## PRO PERFORMANCE REPLACEMENT GRIP

SKU: WRZ470800

Price = R150 incl.

Wilson's Pro Performance Grip yields a soft, tacky surface for ultimate feel. Easy Wrap Technology makes it super easy and simple to apply this replacement grip - a longer starting taper allows the grip to seamlessly wrap around the butt cap, while a shaded upper edge serves as an overlap guide for consistent wrapping. Altogether, these features create a professional look and feel for any tennis player.

## SPONGE REPLACEMENT GRIP

SKU: WRZ4205BK

Price = R140 incl.

Sporting large dimples that funnel sweat into its felt layer for exceptional moisture absorption, the Cushion-Aire Classic Sponge Replacement Grip maximizes comfort for your hands. Couple this sponge, cushioned feel with a tacky surface for a more secure grip, and the decision to upgrade becomes a whole lot easier.

## SUBLIME REPLACEMENT GRIP

SKU: WRZ4202BK

Price = R149 incl.

Wilson's signature replacement grip featuring a desirable balance of tack and comfort, the Sublime Grip is a top performer for many tennis players. Micro perforations on the surface work to increase moisture absorption for sweaty hands, maintaining excellent grip to help you stay in control from start to finish. The embossed edges also amplify tracking, which reduces the tendency of the grip to slip when in use.

# EXACT TACK SQUASH REPLACEMENT GRIP

SKU: WRR937200

Price = R100 incl.

An exact balance of tackiness and for comfort, great for any squash racket. Wilson have been producing excellent accessories for squash and other racket sports for long to earn their exceptional reputation.
